

Operating and Installation Instructions

Universal Frames SR-500

DESCRIPTION

The SR-500 is a one (1) slot wall mountable desk chassis that accepts all Meridian Technologies' card units.

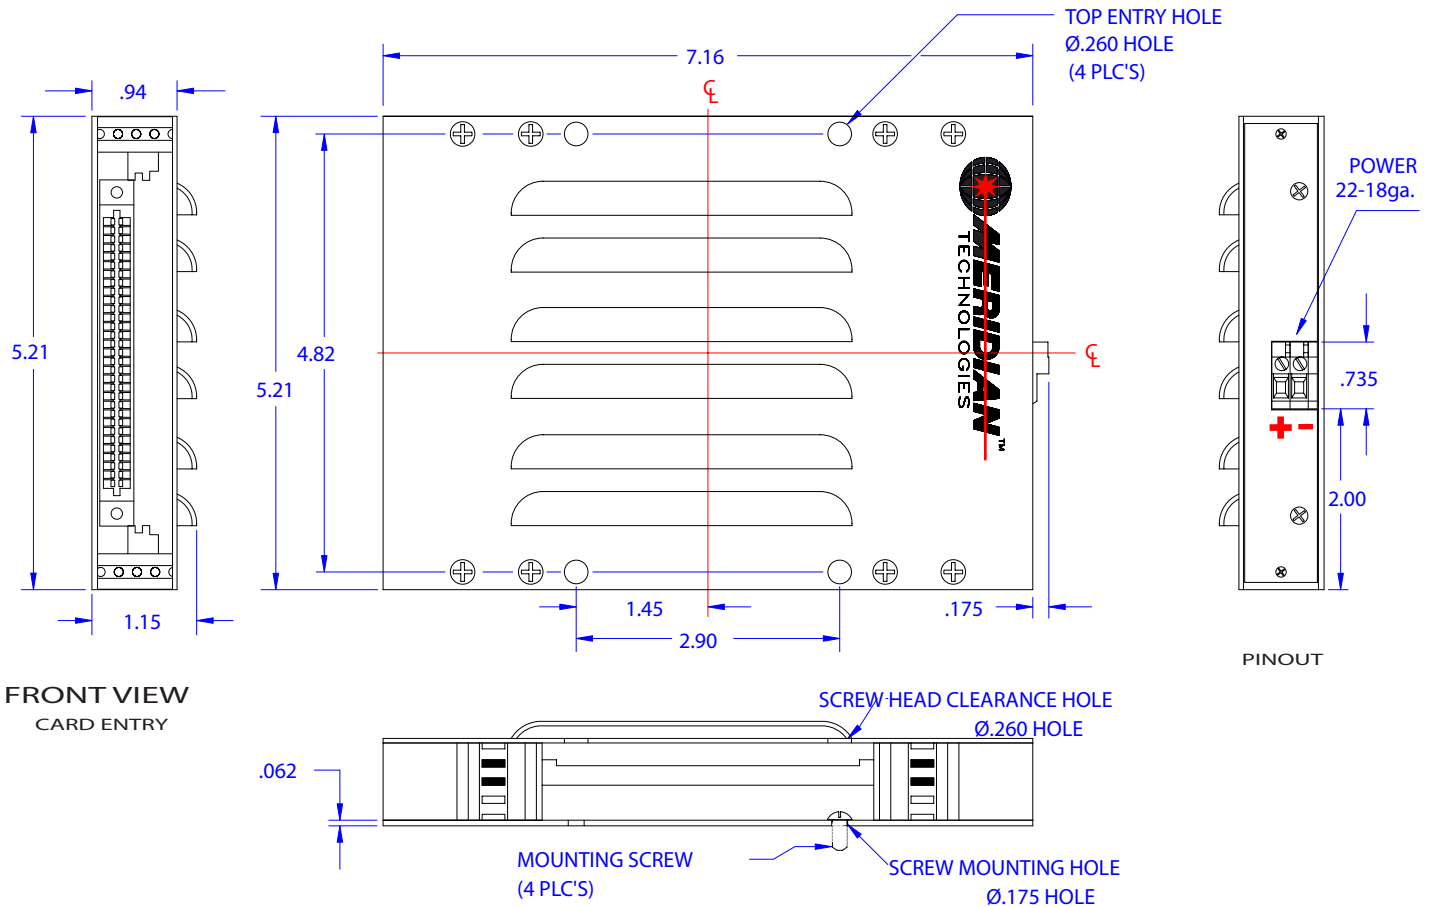

POWER SUPPLY

The SR-500 is powered by an internal switching power supply. The unit accepts

1. from 12VDC (500mA) to 30VDC (300mA)
2. from 12VAC (500mA) to 24VAC (300mA) via external power source (customer supplied).

INSTALLATION

The unit can be installed on either a horizontal or vertical surface. There are four mounting holes for # 8 (maximum) hardware. Two knurled captive screws secure the card into the chassis' card slot. Power is distributed by a mother PCB in the rear of unit.

Power Options:

1. from 12VDC (500mA) to 30VDC (300mA)
2. from 12VAC (500mA) to 24VAC (300mA)
