

500 MODEMS, 500 MILES OF FIBER. READY TO PLAY “FIND THE FAULT?”

SIMPLIFY FAULT DETECTION AND TROUBLESHOOTING WITH THE MULTIDROP MODEMS FEATURING POWERFUL BUILT-IN REAL-TIME DIAGNOSTICS. ONLY FROM MERIDIAN.

Eliminate countless and costly unproductive hours spent locating faults, reduce needless truck rolls, and get on with the business of keeping your ITS up and running smoothly.

Only Meridian 2300M fiber-optic multidrop modems combine self-healing ring capabilities with the powerful diagnostics to tell you where a fault lies. Our exclusive

SpectraSmart management software monitors the ring and reports specific faults locally and remotely. So you know precisely where the fault is and can fix it fast.

Meridian is the one company bringing diagnostic intelligence to ITS fiber rings. Make the smart move to win at finding the fault.

Call today or visit www.meridian-tech.com to find out how to qualify for a FREE 30-day evaluation kit.
