

Fan Assembly with 3 fans and
cable management

FEATURES:

- UL/CSA Ball Bearing Motors
- Powered by 115VAC
- Modular Design for Quick Fan Replacement in the Field
- Low Noise, 70 CFM per Fan Duct Cabling
- System for Organizing Wiring of Rack Cabinets

DESCRIPTION:

The FA-2000 is an EIA 19" L x 3-3/4 H fan assembly tray with 3 fan units that deliver cooling air by localizing fan placement to the heat generating area. Units are custom build with Aluminum extrusions for placement in between Meridian Technologies Series SR-2000 EIA 19" L x 5-1/4 H rack mount chassis. The FA-2000 are equipped with rear mounted duct cabling system to retain cables and achieve compact wiring configurations in the rack.
