

**HARDENED 2 PORT MEDIA CONVERTER****1x10/100/1000T(X) RJ45 PORT AND 1x100/1000 SFP PORT****MEDIA CONVERTER****FEATURES**

- 10/100/1000 Base-T Ethernet Auto-negotiation
- Full Duplex or Half-duplex Supported
- IEEE 802.3 Compliant
- Environmentally Hardened for Wide Temperature Applications
- LC, SC Optical Connectors - SFP dependent
- Distances Up To 50km
- Wide Optical Dynamic Range
- Supports one or two fibers with appropriate SFP modules
- 12-24VAC/VDC power operation
- Link Fault Pass-through Function
- SFP Speed Detect
- Jumbo Frames Support

**DESCRIPTION**

The MX-1RE-SFP (stand-alone module) is the Media converter designed for bi-directional transmission of 10Base-T Ethernet / 100Base-T Fast Ethernet / 1000Base-T GigE Ethernet data over one multimode or singlemode fiber.

This product incorporates the industry standard Small Form Pluggable (SFP) optical modules. Various fiber types and wavelengths can be selected by simply plugging in the appropriate SFP module.

SFP Speed Detect feature will automatically configure optical port for 100Mb/s or 1000Mb/s operation, depending on what SFP module is used.

Auto-negotiation eliminates the need for any internal adjustments or settings. Distances of 50km can be obtained using single-mode fiber.

The MX-1RE-SFP is environmentally hardened and will operate over the standard NEMA TS-2 temperature range suitable for outdoor installations.

LEDs on the module indicate the status of power, link speed, activity, laser current and optical signal.

Standard shielded RJ-45 connectors are provided for CAT5 compliance.

## SPECIFICATIONS

Physical Ports
